PLANNING ASPACE FOR GOLDEN REUNION OF GOULD'S CLASS OF 1930

Planning has gone on apace in preparation for the BIG ONE for the Gould Class of 1930. The details and the arrangements for the GOLDEN REUNION of the Class have shaped up well and the Saturday events should make it a gala fiftieth for those who make it back to Bethel and the campus. And it looks as if the attendance could get some sort of record for fiftieth reunions at Gould.

Bethel Man Loses Life in Saturday Fire

Conner's Garage on Mechanic Street was gutted by fire last Saturday night. Harold Conner lost his life in the blaze. According to State Fire Inspector Ron Evans of North Whitefield, evidence at the scene indicated that Mr. Conner was seated on a double automobile seat near a bench at the rear of the building when a drop cord apparently ignited papers on the bench.

The fire was discovered by Jim Moffett, who resides next door to the garage. He was driven back by the intense heat after breaking a window in an attempt to rescue Mr. Conner.

The Bethel Fire Department responded to an alarm sounded shortly after 10 o'clock. The fire spread rapidly throughout the two and a half story structure. The fire inspector described the fire as "very hot", saying that at one point safety releases on acetylene tanks let go and fueled the blaze. A pick-up truck together with all tools and equipment were destroyed.

The gutted structure was collapsed with the aid of a bucket-loader Sunday morning.

Record Turn-Out Expected at Gould Alumni Week End

Gould Academy graduates will return to the Bethel campus for Alumni Week End festivities on Sept. 19-21. Alumni Director Al Barth expects the total numbers to exceed last year's record turnout.

Special emphasis has been made, through individual class reunion chairmen, to get as many of the five-year reunion classes (those with class reunions ending in "0" or "5") to return, but all alumni should remember that they are cordially invited to return, reunion year or not.

Activities planned for the week end includes a reception for class agents, reunion chairmen and Alumni directors at 5 p. m. on Friday, followed by the Board of Directors meeting at 7:30 p. m. In addition, the Alumni Office will be open that evening.

On Saturday the traditional Lumberman's Breakfast will be held from 8:30-10:00 a. m. in the blue and gold tent behind Gehring Hall. At 10:30 a. m. a special slide show will be given by Dr. Stan Howe '62, curator of the Moses Mason Museum, featuring pictures from past reunion years of Gould's history. The Annual Meeting and Alumni Luncheon will be held in Bingham Gym at noon, followed by Gould sports teams in action against Telstar, and a new event this year, the First Annual Invitational Run against the Gould Varsity Cross Country team at 3:30 p. m. The Headmaster's Reception at 4:30 p. m., and the Alumni Awards Banquet at 6 p. m., conclude the formal activities on this day. Individual class parties will probably continue into the later hours.

On Sunday, the newly renovated Art Cottage will be open for inspection, and class picnics will be held as scheduled.

Registration for all will be held just prior to each meal, where tickets can be picked up or purchased by those who have not yet pre-registered. All Gould Alumni are urged to return and join in the fellowship and fun.

Sunday River

— Mrs. R. M. Fleet, Corres. —

Sent in by Eva Yates:

A cloudy Monday morning. We got some rain last night. It rained hard and what a lot of rain we need before the cold weather gets here. The brooks and rivers are all so very low. Canning time is in full swing or it was with us this past week. The kitchens all smell of pickles and relishes and what nicer smell than that? We picked and shelled over 30 quarts of shelled beans one day, that was a job but won't they taste good next winter.

Mrs. Marjorie Buck of Florida is visiting her son, Jeffrey Yates, and family for a few weeks. Jeffrey and his mother called on his Grandma Eva and Uncle Joe Yates, Sunday.

Mr. and Mrs. B. H. Yates arrived home Friday after touring the Maine coast this summer—now it's back to work.

Edwidge Yates is attending night school in Berlin, N. H.

The Rawleigh lady, Elsie Tucker was calling on her customers and friends on Monday. She comes and leaves with a laugh.

Bonnie Hutchins made a doorway call at the Yates' on Monday—reports Laura had broken a toe and needed crutches.

Verna Swan called on Eva and

Joe and stayed and enjoyed one of Joe's ripe tomato stews for supper Tuesday night.

Saturday rolled around dark and cloudy so Joe and yours truly canned up 11 pints of ripe tomatoes. Then we got the old go-shoes off the hook—mopped the dust off them and put 'em to warm preparatory to going to Grange in the evening. It was installation with Rumford Grange so it was a nice meeting—Chester Hayes of Winthrop Grange, Shelburne, N. H., was the installing Master and did his usual good work. Our next meeting will be in two weeks—Sept. 27 with the usual pot luck supper.

Dinner guests of Peggy Blake Sunday were Mr. and Mrs. Bryce Yates and Darnita and Eva and Joe Yates.

Peggy Blake was in Norway and South Paris Friday to have some work done on her car.

Yes sree, the hay was cut on Russell Yates' field on Wednesday.

Keep watch if all goes as planned things will be humming at Bear River soon so keep your hat handy as you won't want to miss it. It means a lot of fun. More later.

Mr. and Mrs. J. T. Yates and family and Gary Yates were in Portland Friday to meet their mother, Mrs. Marjorie Buck, who came in by plane.

Taxpayers are reminded that interest at the rate of 1% per month or part thereof, will be charged, beginning Oct. 1, on all taxes not paid before that date. Although an error in the tax bills states Nov. 1, as the date for interest to start, the correct date as voted by the Town is Oct. 1.

Mr. and Mrs. Anthony Pugliese, Gilead, visited Mrs. Louise Learned, Sunday.

Mrs. Cindy Sweetser and daughter,

Mrs. Mary Tripp returned home Monday after being a patient at St. Mary's Hospital, Lewiston, for two weeks.

Matthew Smith, son of Mr. and Mrs. Bruce Smith, spent Friday night with his grandparents, Mr. and Mrs. Homer Smith, and uncles.

Bruce, Matthew and Mike Smith of South Paris, had Sunday dinner with Mr. and Mrs. Homer Smith. Sympathy of this neighborhood is expressed to the families of Harold Conner and Mrs. Octavia Corriveau, both of whom passed away on the week end. Our thoughts go out to both these families and may peace be theirs.

Mrs. Evelyn Hilborn and Miss Ellen Tuck had four ladies for dinner, Sept. 9: Mrs. Homer Farum and Kay McAllister of Bryant Pond; Louvie Coffin of West Paris and Bertha Flanders of Locke Mills.

The work on the old part of Mrs. Hilborn's house is coming along fine.

This was taken from "Quincy Adams Sawyer", a story of New England Home Life. It is telling about a town meeting—in fact the title of the chapter is "The Town Meeting."

"The next matter on the warrant of general interest was the appropriation of a small sum of money to purchase some reference books for the town library, which consisted of but a few hundred vol-

umes stowed away in a badly-lighted and poorly-ventilated room on the upper floor of the town hall.

"This question brought to his feet Zachariah Butterfield, who was looked upon as the watchdog of the town treasury.

"Mister Moderator," he said, "I'm agin appropriatin' any more money for this 'ere town lib'ry. We hev got plenty of school book in our schools; we hev got plenty of books and newspapers in our house, and it's my opinion that those people who spend their time crawlin' up three flights er stairs and readin' those books had better be tillin' their soil, poundin' on their anvil, or catchin' fish. Now I was talkin' with Miss Burpee, the librarian, and she sez they want a new Wooster's Dictionary, cause their old one is all worn out. Now, I looked through the old one, and I couldn't see but what it's jest as good as ever; there may be a few pages missin', but what's that amount er when there's more'n a couple of thousan' of em left?"

More motions were in between. The last item on the warrant read: "Will the town appropriate money to buy a new hearse?"

Mr. Butterfield had evidently been holding himself in reserve, for he was on his feet in an instant, and he secured the eye of the Moderator and floor.

"Mister Moderator," began Mr. Butterfield, "I desire to raise my voice agin this business of unnecessary and unexampled extravagance. What do we want of a new hearse? Those who are dead and in the cemetery don't find any fault with the one we've got and those who are livin' have no present use for it, and why should they complain? I know what this means. This is only an enterin' wedge. If this 'ere bill passes and we get a new hearse, then 'till be said the horses don't look as well as the hearse, and then if their hearse gits out in the storm, we shall hev ter pay money to git it polished up agin, and us who are livin' will hev to work harder and harder for the benefit of those who are jest as well satisfied with the old hearse as they would be with a new one. I move, Mr. Moderator, that instid of buyin' a new hearse, that the old one be lengthened six inches, which ken be done at a slight expense."

Mr. Tobias Smith now took the floor. "I am glad that my friend has not opposed this measure entirely, but has provided for my proper exit from this world when the time comes. I must confess that it has troubled me a great deal when I have thought about that hearse. I was born down in the State of Maine, where the boys and trees grow up together. I stand six feet two in the stockings and six three with my boots on, and I haven't looked forward with any pleasure to being carried to my last resting place in a hearse, that was only six feet long. I second Mr. Butterfield's motion but move to amend it by extending the length to seven feet."

The vote was taken and Mr. Butterfield's motion was carried by a vote of three hundred and forty to twenty-two. Mr. Butterfield sank back in his seat with an expression on his face that seemed to say: "I've done the town some service to day."

Greenwood City

— Mrs. Colista Morgan, Corres. —

"Asters by the brookside make asters in the brook." They are a vivid part of our autumn from Labor Day to Columbus Day and the hardier ones into November. We take them for granted but the landscape would be lonely without them.

Sweet September now comes down the hills with the wind. One can smell it and feel it especially in the cool of evening, when the Dipper swings low somewhere in the north west. The owl hoots from across the pond where trees stand tall against the horizon.

It's a wonderful time of year of contentment. The sunshine steals about gliding all with a golden mellow light.

On such a day Ruth and I took to the hills. . . to the top of Noyes Mountain. The forests and mountains lay wrapped in brooding stillness, waiting. Through the farm fields we spent much time looking back to the mountains and to the pond.

The road climbed upward winding its way toward Buck's Camp area.

The "highway" now is a far cry from the years when a car or trucks traveled it. The old road has grown to briars and bushes. There are rotting, moss-grown stumps showing through the branches of new-growth birch and poplar.

The way we took is an entirely different route.

From a few chimneys over town we saw smoke spiraling, as we looked toward a screen of leafy birches toward the pond and fields stretching away to the green hills patched with the dark growth of spruce and other evergreens. Beyond we saw East and West Baldpate swept by fleecy clouds. Once we climbed to the West hum but did not have time to go to the top before night fall.

We continued on and as usual found cathedral isles and solitude when nearing the camp.

Rounding a bend we disturbed a squirrel.

Upton

— Mrs. Arline Bernier, Corres. —

Fred and Marian enjoyed a 10-day trip to Nova Scotia and other points of interest in Canada and the States. They returned home Saturday afternoon.

There was much vandalism to the Poland and Edwards camps Thursday afternoon. Other camps on Backstreet were damaged to a lesser extent. Selectman Richard Lecomte investigated and the sheriff came to talk with owners.

The Charrons are staying at Hia-watha Homestead for a time. Lou bought a tractor and has been mowing his fields.

We have been very close to frost temperatures but so far little or no damage done.

The organist from the First Assembly of God Church in Lewiston played, sang solos and led the singing at the service of the Assembly of God in Upton. He gave a testimony of the healing of his son who was present at the service.

Several from Upton have been attending the tent revival in Rumford which will be held through the 19th. Pastors Larry Shaw of Rumford and Bob Colby are assisting Rev. Knight with the meetings.

Edna Seward is in the Rumford hospital.

Arthur Betz is reported to be up and about after the operation which removed his leg. He and his wife are both with good courage and hopeful of the future. They plan to stay at their lakeside home for the coming winter.

Margaret Mitchell and Arline Bernier held a bead class in Stark on election day at the town hall. We were both very busy. Bead classes have been scheduled in Andover and will be opening in Berlin for the winter.

deferred

Arthur Thompson celebrated his 86th birthday Sept. 5. When I stopped by he was sorting out his old love letters.

Alex Lecomte celebrated his 80th birthday, Sept. 5. He didn't have much time to chat when I called on him because he was working on his woodpile with the help of his son, Richard. The highlight of his day was a card from Jimmy and Rosalyn Carter. He thought it was a joke when he saw the envelope with the White House as a return address but was real happy to find it authentic.

Claire Tripp left for Connecticut this week. She planned to stop in Boothbay Harbor and visit other places before returning home.

The Gospel singers from East Waterboro sang to an audience of about 30 people, mostly Upton residents Sunday. The reaction was favorable and the offering quite generous.

Following the service Reis Lasseur invited several year round residents to meet with him to set up an organization. Peggy Dapolito was elected secretary and Ed Brennon was named treasurer. The name chosen for this group is First Assembly of God, Upton.

The planning board met prior to a selectmen meeting Wednesday evening. An application for a permit to build a garage was presented from David Beno. It was decided more information was necessary before granting permit. A permit was signed allowing extension of public service line to a camp on the lake.

Arthur Betz has recently had his leg removed above the knee. He is in White River Junction hospital. His wife, Arlene, reports he is in good spirits and they plan to live in their home on the lake for the winter.

Upton

Mrs. Arline Bernier, Corres.

Fred and Marian enjoyed a 10-
day trip to Nova Scotia and oth-
er points of interest in Canada
and the States. They returned
home Saturday afternoon.

There was much vandalism to
the Poland and Edwards camps
Thursday afternoon. Other camps
on Backstreet were damaged to a
lesser extent. Selectman Richard
Lecomte investigated and the she-
riff came to talk with owners.

The Charmons are staying at Hi-
awatha Homestead for a time. Lou
bought a tractor and has been
moving his fields.
We have been very close to frost
temperatures but so far little or
no damage done.

The organist from the First As-
sembly of God Church in Lewiston
played, sang solos and led the
singing at the service of the
Assembly of God in Upton. He
gave a testimony of the healing of
his son who was present at the
service.

Several from Upton have been
attending the tent revival in Rum-
ford which will be held through
the 19th. Pastors Larry Shaw of
Rumford and Bob Colby are as-
sisting Rev. Knight with the meet-
ings.

Edna Seward is in the Rumford
hospital.
Arthur Betz is reported to be
up and about after the operation
which removed his leg. He and
his wife are both with good cou-
rage and hopeful of the future.
They plan to stay at their lakeside
home for the coming winter.

Margaret Mitchell and Arline
Bernier held a bead class in Stark
on election day at the town hall.
We were both very busy. Bead
classes have been scheduled in
Andover and will be opening in
Berlin for the winter.

Arthur Thompson celebrated his
80th birthday Sept. 5. When I
stopped by he was sorting out his
old love letters.
Alex Lecomte celebrated his 80th
birthday, Sept. 5. He didn't have
much time to chat when I called
on him because he was working
on his woodpile with the help
of his son, Richard. The highlight
of his day was a card from Jimmy
and Rosalyn Carter. He thought it
was a joke when he saw the en-
velope with the White House as a
return address but was real happy
to find it authentic.

Claire Tripp left for Connecticut
this week. She planned to stop in
Boothbay Harbor and visit other
places before returning home.
The Gospel singers from East
Waterboro sang to an audience of
about 30 people, mostly Upton res-
idents Sunday. The reaction was
favorable and the offering quite
generous.

Following the service Reis La-
vasseur invited several year round
residents to meet with him to set
up an organization. Peggy Dapolito
was elected secretary and Ed Bren-
non was named treasurer. The
name chosen for this group is First
Assembly of God, Upton.

The planning board met prior to
a selectmen meeting Wednesday
evening. An application for a per-
mit to build a garage was presented
from David Beno. It was decided
more information was necessary
before granting permit. A permit
was signed allowing extension of
public service line to a camp on
the lake.

Arthur Betz has recently had
his leg removed above the knee.
He is in White River Junction hos-
pital. His wife, Arlene, reports he
is in good spirits and they plan to
live in their home on the lake for
the winter.

OBJECTS OR UNAUTHORIZED STICKERS ON MOTOR VEHICLE WINDOWS ARE ILLEGAL

Motorists are reminded that objects or unauthorized stickers put on motor vehicle windows are illegal.

"State law prohibits the unauthorized use of any sign, poster or other nontransparent material upon the front windshield, side wings or side or rear windows," said Colonel Allan H. Weeks, Chief of the Maine State Police.

The law also prohibits any object placed or hung in or upon the vehicle other than the required or provided equipment.

"The purpose of the law is to insure the vehicle operator has a clear and full view of the road and conditions of traffic behind the vehicle," said Weeks.

Motorists having objects or unauthorized stickers that obstruct or interfere with the view of the operator are guilty of a motor vehicle law infraction that can result in a fine from \$25 to \$250.

AREA STUDENT ENTERS BANGOR THEOLOGICAL SEMINARY

Randall C. Chretien of Bethel is enrolled in the Junior class at Bangor Theological Seminary, Bangor. The Seminary opened for its 165th year on Sept. 7, with 41 students in its entering class.

Bangor Seminary, one of the five oldest institutions in the nation involved in training ministers and Christian educators, is the only Protestant theological school north and east of Boston. It is unique because of the opportunity it offers men and women in other professions to "begin late" for service in the Christian ministry.

Students enter the Seminary from a number of denominational backgrounds. This year they are Baptist, Congregational, Congrega-

Letters to the Editor

Thank You Dr. Gersen
As parents of a student in Telstar and a student at Ethel Bisbee School we feel we have to take this opportunity to publicly say Thank You to Dr. Gersen for his newsletter in the Sept. 4, 1980, issue of the Bethel Citizen.

It is very easy for us as parents to sit at home and pin the blame for our problems on the school system, on our children's friends, on their teachers, their lack of faith in God, their lack of employment, anywhere and on anyone who we feel have bigger shoulders than we do.

Dr. Gersen has spoken to us on his views on Drug and Alcohol Abuse in our community. It is our responsibility as members of this community and parents to unite with him on this issue. We have Drug and Alcohol Abuse in our homes, in our schools and in our communities. It is a nation-wide problem affecting every community, every school and every home. There is no way the schools can do it alone. There is no way we parents can do it alone, but we as members of the community can work together to help make our community a better community in return making our school system a better school system, in return making our homes a better environment for our children. There is no way we can eliminate the problem but we sure can do a lot in making it less of a problem.

In a booklet "Alcoholism" published in 1979 by the Blue Cross and Blue Shield Association statistics they gathered show we have four-and-a-half million alcoholics employed, roughly 10% of the nation's work force, with more executives in the group than members of their staff. We have three-and-a-half million, who are 14 to 17 year olds and still in school, with the number of girls with drinking problems slowly catching up with the boys. The growth in teen age drinking is cause for serious concern. We have 1,500,000 to 2,250,000 women with drinking problems and this latest figure on women is believed to be conservative as women tend to be more successful hiding their problem than men and more reluctant to seek help than men.

We do not have to sit back and see our children grow up and increase the statistics. Can't we as a community work together with the school system and make our community a happier, safer, healthier community in which we live?

As parents and neighbors we try to get you involved in this endeavor and support our superintendent.

Thank you,
Joel and Anne Carter

Eveline Barrett, Corres.

Oxford County Fair had a week of beautiful weather for the fair except for Sunday. Maybe they had the program in the rain.

Our sympathy is extended to the family of Marshall (Mike) Briggs. Several from here attended the funeral Saturday. Mike had many, many friends and he will be missed. Aug. 23 he attended the supper at our hall and we all enjoyed his visit, and keeping his plate filled up. He told us his hands were better and he would be with his horses until he died. And he was. He was exercising a pair of horses and the horses returned to the barn alone. Mr. Trundy found he had had a heart attack and fell to the ground. He was taken to the hospital, but had passed away. He died with his boots on as he had wanted.

Tuesday, Sept. 9, Root Lawrence was at C. M. C. for x-rays and Doris was at Dr. Sokol's. They called on the Emerys at Mechanic Falls, also.

Emery's Building Materials crew delivered the shingles for the hall. Gerald Kimball, a former resident, is at the Stephens Memorial Hospital. Part of one leg was amputated also three toes on the other foot. Let's send him a card.

Eveline Barrett called on Norma Heikkinen, also Mr. and Mrs. Phil Hyam, who showed me through their new log cabin home. It is very nice. They also showed me their coal black Ming (is that

right) cat and four two day old kittens. Two black and bob-tailed like the mother, two all gray with tails. Their dog is the same size as the mother cat and she was very interested in the new babies. Maybe she will pinch hit for the mother cat.

Susan Lyons has been with her sick mother in Massachusetts so Eveline Barrett and Doris Lawrence picked four bushels of tomatoes, also corn, broccoli, cauliflower, big yellow cukes and everything so Jack Frost got fooled good.

Lennie Pierson got hurt using a power saw Wednesday. A chip flew back and hit him. He was taken to Norway hospital, eight stitches were needed. Just missed his jugular vein by a half inch. The Lord wasn't ready for him.

Callers at Lawrences: Myrtle Downing, Betty McAllister, Carroll Records, Lloyd Huntley, Joe and Laura Kalinowski, Albert Penley Sr., Dick Heline, Wilbur Lawrence, Gorham, N. H. Larry Lozier, Shelbyburne, N. H., called Saturday evening. They had been to Oxford County Fair.

Laura Kalinowski, Marietta Penley, Doris Lawrence went to a supper at Poland, then called on the Maynard Emerys.

David Lyons met his wife in New Hampshire, Friday evening, and they attended the wedding of her cousin. Susan returned home with David Sunday evening.

A nice rainy day Sunday and we need a lot more.

During World War II, the late Joseph Barrett had charge of the U. S. Army and Air Force Observation Post that was located on the Tuelltown Road. His arm-band has been donated to the West Paris Historical Society by Mrs. Joe.

Health Hints for Travelers

1. Have a medical check-up before leaving on a trip.
2. If you have diabetes, are allergic to certain medications, or if you have a condition that requires special medical emergency care—have some identification (a bracelet, necklace or emergency card) on your person at all times.

3. Assemble a first-aid kit to take along with you in your vehicle.
4. Travelers with chronic illnesses such as heart disease or diabetes, should restrict themselves to traveling in those areas where competent medical help will be available.

5. Always inform a friend or relative of your vacation plans—so that proper authorities can locate you in case of emergencies.
6. Use caution when driving long distances. Make frequent stops for rest. Do not force yourself to continue driving, if you become tired. Stop and rest—it could save your life and prevent a tragic accident involving others.

M. S. A. D. #44 Superintendent's Newsletter

Dr. Wayne F. Gersen

For the past several years, almost since the inception of S. A. D. #44, School Boards and Superintendents have debated the need for more buildings. Tonight (Thursday), at a meeting of the Buildings and Grounds Committee, the debate will begin anew.

The need to investigate building alternatives is based primarily on energy costs. In the past four years, the school district has worked hard to conserve energy. In the fall of 1976, S. A. D. #44 was selected as one of the state demonstration energy conservation projects by the State Office of Energy Resources. At that time, Mooney Engineering from Cumberland Center performed an energy audit on Telstar, the Ethel Bisbee School, and Woodstock School. The Board of Directors received a comprehensive report of these audits in January 1977.

In the report, the engineers outlined several no cost, low cost, and major cost projects the District could undertake to make the three audited buildings more energy efficient. The District, at virtually no cost to the taxpayers, implemented nearly all of the no cost and low cost recommendations made by Mooney, and completed two of the major cost items. These projects were completed using energy funds from the State. Furthermore, the Board subsequently had two other audits conducted, at Telstar and Crescent Park, and completed the low cost projects recommended in those audits. Among the low cost projects undertaken were repairing an opening over the gym wall; weather-stripping doors; relocating and recalibrating thermostats; and installing time clocks to monitor the ventilation system. The no cost projects largely involved the district personnel conscientiously making an effort to follow energy savings practices like closing entry doors, closing the curtains or window shades at the end of the day, turning off unnecessary lights, and keeping radiators uncovered.

Despite the District's efforts to reduce energy consumption, it is evident that we are reaching a limit to the savings that can be realized through no cost projects and low cost projects. In order to reduce energy costs further, we must decide to invest a significant sum of money in either renovating our existing buildings, or developing new building projects.

Such a decision will be made only after carefully weighing facts, figures, and public sentiment. A decision must be made with all deliberate speed, however, because every year the decision is delayed, the district spends needless dollars on energy—while students attend buildings that are progressively deteriorating. As the Board of Directors' building and grounds committee works on this decision in the coming year, every effort will be made to share our information with the public, so that we can make a decision that will be in the best interest of the general public.

Rebecca Hanscom had perfect attendance last year in first grade. She also had perfect attendance in Kindergarten. Congratulations, Becky!

THIS WEEK AT ETHEL BISBEE SCHOOL

The first assembly of the school year was held last Thursday with the introduction of the Ethel Bisbee School staff. Students in each class told about something they have been doing in school. Children who are new at E.B.S. this year were introduced. Eleven new students have transferred to E. B. S. Andy Aron, Amy Bubar, Sol Richardson (Mrs. Gaudreau); David Peay (Mrs. Gould); George Cast-
vante, Amy Murphy, Seth Richardson, Gail Ness (Mrs. Davis); Michael Clark, Mercedes Brent, Michele Roshto (Mrs. McCluskey). "We are all new," said Mrs. Gallant about her afternoon kindergarteners.

Miss Andre gave birthday certificates to the children who have birthdays in August or September. They were Paul Crommett, Damian Morrill (Mrs. McCluskey); Molly Gray, David Peay (Mrs. Gould); Matthew Cummings (Mrs. Davis); Jason Yates, Chris Cordwell, David Hanscom, Shannon Bates, Jaimi White (Mrs. Gaudreau); Frederick Bunk, Thomas Newell, Shane Lovejoy (Mrs. Gallant); Joel Mills (A. M. Kindergarten) will receive his on the day of his birthday.

More than 35 parents and guests attended the assembly and stayed for the parents meeting afterwards. David Walton, the home-school coordinator, explained the course he will be teaching in Adult Ed. Parent Handbooks were handed out.

Refreshments following the Assembly were garden vegetables prepared by the children. The "veggies" tasted good dipped in pineapple-cream cheese or peanut butter.

Rebecca Hanscom had perfect attendance last year in first grade. She also had perfect attendance in Kindergarten. Congratulations, Becky!

South Woodstock — East Bethel

Oliver Davis, Corres.

Fall is arriving fast with cooler weather marking the change.

Many people here are enjoying Norway fair this week with the typical cold nights. The gardens are ready to be harvested. Tuesday night the thermometer dipped to 28° by morning but I couldn't see any signs of a frost, which surprised me. I have picked the tomatoes and am in hopes many will ripen inside.

Schools are in full swing here. Two busses travel by every day with not too many in one of them. They take a lot of gas, full or empty. It doesn't seem to me that it is very frugal.

Frank Campbell is in the C. M. C. hospital for an operation which took place Wednesday. He is gaining now.

We are sorry to report that another friend, Ruth Barnett, has also undergone an operation at Stephens Memorial hospital Wednesday. She is gaining now.

Sunday I attended the Grandparent day at Ledgewood Memorial Home. Elizabeth Russ was the lady I was visiting especially. They held a parade before dinner. This was led by the baton twirlers, Carol Belskis pupils. Then Don Cox drove his caravan and ponies behind the girls. He had some children as passengers. A girl on horseback followed him and then the patients in wheel chairs were lined up behind them. They sported balloons on their chairs or in their hands.

After parading on the grounds the group were placed at the tables set up on the front lawn and dinner was served them and their guests. Phelps Poland barbecued hot dogs and a pot luck table was set up for all to serve themselves.

Animals were on the grounds for the group to enjoy while waiting for the parade. Mary Fleming

"THANK YOU"
My sincere thanks for all the prayers, flowers, cards, visits and all other expressions of friendship that I received during my confinement in the hospital. They were a comfort when I needed them most.

May God Bless you All,
Reverend Carl M. Kingsbury

Librarian Margaret Learned notified the trustees that the Harrison Bookmobile will no longer serve Andover. She also informed the trustees of an increase in usage at the library in the past few months. The increase represents all age groups, and both magazine and book circulation. In an effort to accommodate cardholders the trustees voted to try extended library hours over the next eight weeks. Beginning Sept. 25 the library will be open on Thursday from 1:30 to 7:30 p. m. The hours on Tuesday and Saturday remain the same, 1:30 to 4:30 p. m. The trustees invite your comments on these new experimental Thursday hours. Let the librarians know if they are more convenient. The librarian and the trustees invite any resident who has not been to the library recently to come in and check out the new and varied book selections.

Mrs. Jo Sanderson, Cor. —

Here it is into September, and most of the circle suppers are over until next summer. We will miss all that good cooking, but tell you what, there is always the I. O. O. F. suppers in Bethel, which are the first and third Saturdays of the month, and they are truly great. Try one some Saturday night and you will find yourself going back real often.

The weather here is foggy and wet, but many wells are dry and it is badly needed. Fred Bessey is having a well drilled and they are still working on it.

Mr. and Mrs. Laurence Herrick were in Togus one day last week. Clyde Stanton and Jo Sanderson were there Saturday to attend orientation and the September carnival. It was well attended.

Now that the World's Fair is over, people around here are busy getting their gardens and fruit taken care of.

Jo Sanderson took her sister, Kay O'Leary and Clyde Stanton to see the girls' father, Walter Lord, who is a patient at Pomroy Hill nursing home. They found him feeling much better than he has been.

The Knight Riders Snowmobile Club met Tuesday night, and the Ski-Doo they won last March was sold at a sealed bid. Clyde Stanton bought it for top bid. They had election of officers and the new ones are: President, Pete Fox; Vice President, Bill Hunt; Sec., Marjorie Rugg; Treas., Wendell Millett; Trail Boss, Pete Fox.

The Youth Group of East Stoneham had a camp out at the Club house in August. The club has already started clearing out the Albany trails of brush. They used the new brush cutter and said it works fine.

**WELL INVESTIGATED****ARCHAEOLOGICAL PROJECT**

The well in the courtyard of the Moses Mason Museum was investigated as a possible archaeological site last week by Alvin Barth, Jr., instructor of archaeology at Gould Academy. Barth arranged with Museum Director Stanley Howe and Brooks Brothers to pump the 15 foot well of its approximately three feet of water. Barth then checked the rock work surrounding the well as he descended by ladder to the bottom. The results of this inquiry were disappointing since there was at the bottom only a foundation stone, a few leaves, a little silt and a few pieces of wood. This discovery ended any hope that this might prove a worthwhile student project in historical archaeology.

Wells can however, be good repositories of artifacts, particularly if for any reason they were filled in. Often the artifacts found here are in extremely good condition. In the case of the Moses Mason well, it apparently was cleaned out regularly until it was abandoned when it was covered over by a sun porch in the late nineteenth century. The well was not re-discovered until the restoration of the Moses Mason House in 1972 when a well house was built to cover it.

Mr. and Mrs. Paul Kailey

Kailey Honored by Gould Alumni

At the Annual Alumni Day luncheon and meeting of the Gould Academy Alumni Association last Saturday, former Gould teacher and coach Paul K. Kailey was honored as the recipient of a special faculty award.

Mr. Kailey was born and raised in Berlin, N. H., and after a tour of duty in the Air Force in World War II, he graduated from Middlebury College with an A. B. degree. While in college he was an outstanding four-event skier and athlete.

He came to Gould in 1951 as a teacher of social studies, and remained for 16 years. During that time he also served as an assistant football coach and head ski coach for the Gould Academy Huskies. His ski teams were always a threat to win state and regional titles, and in 1961 and 1962 his team won both the State of Maine Class A and New England Interscholastic Ski Championships. Four members of his 1962 team went on to participate in the Junior Nationals that year.

While teaching at Gould, Kailey began a modest ski business in his home, later two ski shops—in Sunday River Ski Area and in the town of Bethel. He left Gould to operate his ski business, later selling the business to Jack Frost Shops, Inc. He now works representative for the corporation. He and his wife have three children, graduates—Peter 19 and Chris 1977.

The award was presented by Carroll '55, president of the Association, who noted it was quite a coincidence that his 1955 year class reunion celebrated their 1955 year upon their graduation.

OVERDUE 1980
